Figure 2

Airplane Mode

iReminder is a device used by most people when travelling and can quickly and efficiently be temporarily disabled by simple enabling airplane Mode" on your mobile device. At this time, **ALL** connected tags will emit and audible alarm, then enter a "sleep condition" and will stop transmitting. Each tag will only

reawaken, when "airplane mode" on your mobile device is disabled.

Please note: On disabling airplane mode, it may take up to 1 minute for each

## Locate your iPhone/iPad or iReminder

To simply test the paired device and to Locate your iPhone/iPad Press and immediately release the "Find Me" button as illustrated in Figure 8. Your iOS device will emit an audible signal for approximately 5 seconds.

## To locate your valuables attached to the iReminder

Tap the Dutton (as illustrated in Figure 9), the iReminder will emit a beeping sound and then continue to beep for approximately 5 seconds.
